Our most popular iPad stand mount, 19722 is holding your iPad in the perfect spot - whether using it to trigger backing tracks, scrolling through charts or lyrics, or even as your stage monitor controller.

Like all K&M iPad holders, it's dead-set so you can clip your iPad in or out, yet it's held securely in place.

Portrait mode or landscape view, the holder smoothly rotates through 90° into the perfect viewing angle.

The strong prismatic element with its ergonomic clamping screw allows the iPad holder to be attached quickly and easily to any tubes up to 30 mm diameter.
