

## SENNHEISER EWD1-845S-NH-NT

D1 Series Wireless - Supercardioid Vocal System

Order code: EWD1-845S-NH-NT

RRP: ~~\$849.00~~

**Our Price: \$719.00**

For stage performance without the hassle of checking Sennheiser's D1 (digital) Series vocal system featuring the dynamic, supercardioid 845 capsule. System setup is dead-simple. Touch the buttons on your transmitter/receiver lock onto each other with the ferocity of a first love. In just a fraction of a second, the system locates the best frequencies and syncs up to 15 additional transmission links, just in case they're required. Automatic gain control ensures the sensitivity of your signal remains perfectly adjusted. The D1 system reviews your radio channels 133 times per second, responding more quickly to changes in the sound that takes sound to reach your ear. When needed, it can even boost the transmission power to make you the strongest in the immediate environment within a fraction of a second. (a blink of the eye takes longer)

Wireless Frequency: 2,400 to 2,483.5 MHz (Sennheiser Digital EW D1 Series)
