

## TASCAM DR40

Handheld 4-track recorder

Order code: DR40

RRP: ~~\$399.00~~

**Our Price: \$339.00**

Tascam DR-40 is a 4-Channel 96kHz/24-bit PCM Recorder with XLR Inputs and Adjustable Mic. DR-40 captures up to four tracks from built-in, quality condenser microphones, XLR mic or line. The internal mics are adjustable from XY to A, helping you to tailor your recording to the source room.

A pair of microphone preamps welcome condenser microphones with phantom power, recording at 96kHz/24-bit resolution. It accommodates balanced or 1/4" line inputs using locking Neutrik Combs. The DR-40 accepts SD or SDHC cards up to 2GB; a 2GB card is included. Transfer recordings to a computer using USB 2.0.

Of course, that's just scraping the surface! Check the description tab below for a complete feature list, or the video tab for a short promo produced by Tascam.
