

ZOOM EXH-6

XLR/TRS combo input capsule for H6

Order code: EXH-6

RRP: ~~\$149.00~~

Our Price: \$99.00

Great little module to help blow your H6 out to the smallest 6-track recorder on the planet!

With 2 x XLR/TRS combo inputs, each with its own knob, putting one of these little puppies in place of the XY capsule (of the MS, whichever you normally use), it allows you to plug a total of 6 mic or line inputs into the H6.

An excellent addition to your recording rig.
