

## NEUTRIK NC3FXS

3 Pin Female XLR connector ON/OFF Switch

Order code: NC3FXS

RRP: ~~\$23.70~~

**Our Price: \$18.00**

NC3FXS is a handy connector to help turn an microphone into a mic with an on-off switch.

Best used to ensure a DJ mic never feeds back while the band goes on to do their set!

Note: if you're running phantom power to a condenser mic, this may cause a very nasty bang through system, so ensure it's only used with a dynamic microphone.

3 pole female cable connector, Nickel housing, FX cable connector with noiseless ON-OFF switch short-circuiting contacts 2+3.
