

## BEYERDYNAMIC TGV35DS

Handheld dynamic mic (supercardioid) with switch and cable

Order code: 707244

RRP: ~~\$79.00~~

**Our Price: \$69.00**

Need to get started with a vocal microphone? Look no further than Beyerdynamic TGV35DS it's not the most aesthetically pleasing number going around... but the rest of it is perfect!

The micFor starters, the handheld microphone supercardioid pickup pattern — meaning naturally resistant to feedback (squeal) in most situations requiring a microphone for spoken word or singing. The dynamic capsule does not require additional power from the mixing board — this microphone ideal to simply plug into a power speaker box, if you're trying to amplify for a wedding speech, school assembly, outdoor auction, or any other simple public address situation you may encounter.

In addition, the handy on/off switch is 'noiseless' when you need to mute the microphone signal. The package includes where TGV35DS comes with its own. Not only do you get the handheld mic, you also get a protective pouch for the mic, plus a microphone clip (in case you're using a stand to mount the mic), PLUS you get a 3-pin XLR microphone cable (4.5m length).

The final wordAs a 'starter pack', TGV35DS is perfect. Use this for DJ announcements, rehearsal rooms, schools, churches and when you need to be the Master of Ceremonies.
